

Healthy Mom and Baby Competition

Management Performance Hub Data

As part of the collaborative effort of this project, the State of Indiana's Management Performance Hub has released 44 datasets containing state information on maternal and infant health. These datasets were developed in collaboration with the State Department of Health, Indiana's Family and Social Services Administration, and the Regenstrief Institute. These datasets can be used by participants to aid in the analysis of the problem and to develop solutions. The datasets can be found at:

<https://hub.mph.in.gov/dataset?tags=Datapalooza>

Teams in the 2019 Health Mom + Baby Datapalooza developed dashboards around the datasets. These can also be used by participants and can be found at:
